

Great
salmon
with a
twist

Frozen is the new Fresh

Freezing locks in all the goodness and nutrients of just-caught fish, so if you truly want fresh, buy frozen!

Freezing is nature's way of preserving food, without artificial additives

Our fast freezing locks in all the freshness, flavour and nutritional quality of 'just-caught' fish

Salmon and trout are rich in Omega3 - good for healthy heart, skin, eyes and brain development

With longer storage times, frozen means nothing is wasted, use just what you need, when you need it

Cut food miles - fish in the freezer means fewer trips to the supermarket

Frozen is value for money, always in season and helps to reduce food waste and costs

Responsible Sourcing is a key priority

Respect for the environment is a cornerstone of what we do. We source from carefully selected farmers who focus on minimising their impact on the marine environment and wild fish stocks. We are a certified supplier to both the GlobalGAP and Aquaculture Stewardship Council standards for sustainable aquaculture, as well as the MSC (Marine Stewardship Council) standard.

Our award-winning fillets

Our frozen Salmon and Sea Trout fillets are the ultimate in flavour and convenience. Top quality fish, boned, filleted, fast frozen and wrapped, all ready to prepare a fantastic meal in minutes straight from the freezer. The range includes plain fillets or salmon marinated in a range of seven delicious flavours.

Fish Cakes

These wholesome fish cake recipes are made by combining top quality fish with locally-sourced ingredients, then fast freezing to deliver all the fish's natural freshness, flavour and nutritional value to your plate.

Smoked Sea Trout

“Our Smoked Sea Trout is reared at sea for a clean, marine flavour and firm texture. It’s just a little bit different – and if you love smoked salmon we guarantee you’ll like this!”

Specially selected fish

Oak smoked for eight hours for fuller flavour

Traditionally cured and hand sliced

Smoked Salmon

“We so love salmon we just had to do a Traditional Smoked version. Of course we’re biased, but everyone who tastes this one seems to agree it’s a little bit special!”

Organic Salmon

Our finest Organic Salmon fillets are produced to certified Organic standards by our supplier in Scotland. Simply trimmed, boned and fast frozen.

Salmon Bites & Goujons

A fantastic new idea and a great Omega3 rich alternative to breaded scampi or chicken.

So easy to eat, a new family favourite!

Why BigFish Brand?

Our award-winning BigFish range is made with care by our family-owned firm, using responsibly sourced fish from farmers that we know and trust. We prepare whole fish at our accredited factory in Grimsby, adding a few extra ingredients and our expertise to create nutritious, delicious products. We're passionate about what we do - there's no finer fish than salmon and it's our job to make it as easy to enjoy as possible!
